"Recensione ""**The definitive book on the quake** which killed more than 15,000 people and led to the Fukushima nuclear disaster." (Mail Online)""Every time I think of it, I'm filled with wonderment... This book is **a future classic of disaster journalism, up there with John Hersey's Hiroshima.**" (Rachel Cooke Observer)""Mr Lloyd Parry offers a voice to the grieving who, too often, found it hard to be heard. It is a thoughtful lesson to all societies whose first reaction in the face of adversity is to shut down inquiry and cover up the facts. **You will not read a finer work of narrative non-fiction this year.**" (Economist)""**A stunning book** from the man who has a strong claim to be **the most compelling non-fiction writer in the world.**" (Johann Hari)""A book of **absolute, harrowing truth and beauty.** I'd give up four of my novels to have written this book." (Jim Crace Guardian)""**A breathtaking, extraordinary work?** Parry writes with great fluency and timing, like a novelist alternating cadences and withholding information from the reader so as to create moments of tension and surprise. And there is something of the folklorist in the way he discusses the tradition of ghost stories in places such as Tohoku and Sendai." (Gavin Jacobson Times Literary Supplement)""**Compassionate and piercing...** giving it **the character of a finely conceived crime fiction or a psychological drama? Tragic, engrossing.**" (Eri Hotta Guardian)""Parry, a journalist and long-time Tokyo resident, is able to draw something **meaningful, even lovely,** from the well of misery? Overall, the strength of the book lies in its stories, its observations and its language? The language is **daring** throughout." (David Pilling Financial Times)""Ghosts of the Tsunami is alert to the social and political ramifications and transfixed by the spectral quality of the post-disaster landscape? These twin streams ? one universal, the other intensely particular ? come together in the mystery that is at this book?s core? Some of his most **fascinating** chapters take in the disaster?s psychological aftermath? It is full of stories of human endeavor, of individual and collective triumph over well-nigh insuperable odds? As well as being full of ghosts, Lloyd Parry?s **A-grade reportage** is also full of metaphors." (D. J. Taylor The Times)""**A remarkable and deeply moving** book ? describing in plain and **perfect prose** the almost unimaginable devastation and tragedy of the Japanese tsunami." (Henry Marsh) L'autore **Richard Lloyd Parry** is Asia Editor of The Times. He was born in 1969 and was educated at Oxford. He has been visiting Asia for eighteen years and since 1995 has lived in Tokyo as a foreign correspondent, first for the Independent and now for The Times. He has reported from twenty-one countries and several wars, including Iraq, Afghanistan, Indonesia, East Timor, North Korea, Papua New Guinea, Vietnam, Kosovo and Macedonia. His work has also appeared in the London Review of Books and the New York Times Magazine. He is the author of In The Time of Madness, an eyewitness account of the violence that interrupted in Indonesia in the 1990s, and People Who Eat Darkness: The Fate of Lucie Blackman."
