International Financial Reporting Standards (IFRS) are the basis for financial reporting. The original IFRS documents span thousands of pages, and so are difficult to research. The IFRS Guidebook solves this problem by condensing the key elements of IFRS into a single volume. This book describes each accounting topic, how accounting information is to be disclosed, and where to look in the IFRS source documents for additional information. The text contains hundreds of practical examples that show how to apply IFRS to real-world situations, as well as sample journal entries and usage tips.

This edition of Deloitte s iGAAP 2018 This edition of Deloitte s iGAAP 2018 sets out prehensive guidance and is the ideal one stop shop for entities reporting under International Financial Reporting Standards IFRS and for those considering whether to move to IFRS in the n
