"Pressestimmen 'Abu Sitta is a leading expert on the 'nakbah' and what is nowadays widely described as the 'ethnic cleansing' it involved. He is also a passionate advocate of the 'right of return,' under which Palestinian refugees must be allowed to go back to their lost lands and property.'--The Guardian'An extraordinary engineer and scholar.'--Edward Said'This manuscript is a valuable and unique addition to the genre of Palestinian autobiographies in English.'--Dr. Rochelle Davis, Center for Contemporary Arab Studie, Georgetown University'In a life lived intensely, with unflagging curiosity and vocal outrage at the injustices that have beleaguered his people, Salman Abu Sitta is to be celebrated for his tenacity, intelligence and ability not to lose heart despite all the odds. This accessible and informative book describes all that he has lived through as a Palestinian, both on his own land and as a refugee. It also presents very clearly the fundamental need for the 'right of return' to be enshrined in any just and lasting peace in the region.'--Selma Dabbagh'There is much debate about the origins of the quotation that Palestine was a land without people for a people without a land, but no doubt at all that it was Golda Meir who said that 'there is no such thing as a Palestinian people.' Palestinians remaining there and the diaspora scattered worldwide, have totally disproved these statements in the hundreds of books and histories and mapping that have been published since the Nakba. Many are feats of great scholarship. Salman Abu Sitta has the broadest experience and longest tale to tell of any Palestinian I have ever met and this comprehensive history and geography of the land and its people should be on everyone's bookshelf. Everyone that is, who seeks to understand fully the greatest injustice of the 20th Century and how it affected the Palestinian people who still have not given up the hope of return to their homes in Palestine. Nor should they.'--aroness Jenny Tonge'Salman Abu Sitta writes about a personal experience, but he also tells the story of a people and a nation. A highly recommended work from a well-known scholar that will appeal to anyone seeking to understand this story.'--Dina Matar, author of What It Means to be Palestinian'The spirit of Dr. Abu Sitta's Mapping My Return: A Palestinian Memoir mirrors precisely the dynamic quintessence and will of its creator in a word--sumoud--a compelling steadfastness to his homeland Palestine and to the right of return of every Palestinian.'--The Palestine Chronicle'Abu Sitta's memoir conveys a still burning sense of outrage at the injustice of the dispossession of the Palestinians and the denial of their rights--a personal and collective Nakba without end.'--Ian Black, The Guardian'Abu Sitta is a leading expert on the 'nakbah' and what is nowadays widely described as the 'ethnic cleansing' it involved. He is also a passionate advocate of the 'right of return,' under which Palestinian refugees must be allowed to go back to their lost lands and property.'--The Guardian'An extraordinary engineer and scholar.'--Edward Said'The events of 1948 have been told elsewhere, but rarely with the immediacy and poignancy of this child's-eye view. . . . All of Abu Sitta's research has led him to the conclusion that, far from being 'full up, ' Israel has plenty of land available for the rehousing of refugees in and around the towns and villages depopulated in 1948. He envisions a state of peaceful coexistence, after the demise of a racist ideology that bears the seeds of its own destruction.'--Hilary Wise, Middle East Eye'This manuscript is a valuable and unique addition to the genre of Palestinian autobiographies in English.'--Dr. Rochelle Davis, Center for Contemporary Arab Studie, Georgetown University'In a life lived intensely, with unflagging curiosity and vocal outrage at the injustices that have beleaguered his people, Salman Abu Sitta is to be celebrated for his tenacity, intelligence and ability not to lose heart despite all the odds. It is both riveting and very moving. Salman Abu Sitta weaves very skilfully his personal story with the broader story of the Palestine tragedy. Underlying it all is the terrible injustice that the Zionist movement has inflicted on him, his family, and his entire people. His book conveys eloquently and powerfully his own experience of dispossession and exile as well as his unflinching determination to map his return. . . . A really outstanding Palestinian memoir which deserves the widest possible readership.'--Avi Shlaim, author of *The Iron Wall: Israel and the Arab World*'Much more than a personal memoir. This is a book that should be a mandatory study for young Palestinians and all those who believe in the justice of their cause and their right to return'--Middle East Monitor'This is a highly readable book, much recommended to anyone with an interest in Palestinian history. More than that, it is a significant piece of documentation, recounting events and ways of life which have largely been forgotten or erased.'--The Electronic Intifada'The spirit of Dr. Abu Sitta's *Mapping My Return: A Palestinian Memoir* mirrors precisely the dynamic quintessence and will of its creator--in a word, sumoud--a compelling steadfastness to his homeland Palestine and to the right of return of every Palestinian.'--The Palestine Chronicle'Especially since less has been written about South Palestine than about other parts of the country, Abu Sitta's account is a valuable contribution to Palestinian political and social history.'--The Jordan Times'This memoir is crucial to understanding why and how the Palestinian question has not been put to rest after 68 years.'--Al-Ahram Weekly
