"Pressestimmen 'Each chapter begins with an introduction to the material and contains a succinctly done and well-illustrated main body, followed by a listing of dos and don'ts for the type of material covered. The text is recommended for the novice presenter as well as the seasoned instructor looking for ways to improve delivery and, perhaps, student (or cohort) evaluations.'--**IEEE Pulse, July/August 2014** 'This volume guides researchers and graduate students in the creation of compelling science communication?This clear, readable volume?provides visually intensive guidance at every step-from the construction of original figures to the presentation and delivery of

those figures in papers, slideshows, posters, and websites.'--***Anticancer Research 34, 2014*** Rezension A superior visual guide designed specifically to aid scientists in the creation of compelling tables and figures, slides, posters, and web site material.
