"Pressestimmen 'This handy introductory text is a clear and focused account of the diverse range of modernist cultural practice that is normally grouped under the banner of 'Expressionism'.' Dorothy Rowe, University of Surrey, Roehampton' This handy introductory text is a clear and focused account of the diverse range of modernist cultural practice that is normally grouped under the banner of 'Expressionism'. Behr delineates the origins, meanings and historiography of the term before going on to provide a thematically structured approach to the art and artists commonly associated with it. A particular strength of the book is the inclusion of references to primary material not normally included in introductory texts of this nature as well as an extensive'...part of an interesting series that has some strengths and weaknesses for school use. It's handy to have art books that are so thin and easy to handle.' Kliatt Über das Produkt In this accessible introduction to the history of Expressionism, the characteristics of the movement are surveyed less in terms of a cohesive style than from the perspective of the milieu in modern German culture. The works of both well-known and less familiar artists are considered. Synopsis Expressionism was united by a rejection of Impressionism and a search for an inner, essential reality behind the external world of appearances. Nietzsche's writings also inspired Expressionists to emphasize 'personal expression' during the creative process that rendered their works jarring, apparently unresolved and distorted. In this accessible introduction to the history of Expressionism, the characteristics of the movement are surveyed less in terms of a cohesive style than from the perspective of the milieu in modern German culture. The works of both well-known and less familiar artists are considered. In particular, the impact of the First World War is examined in light of the Utopian concerns of sculptors, architects, and painters. Expressionism's demise during the 1920s and the Third Reich is traced through to the reemergence of the tradition after the Second World War."

**Expressionism is an art movement and the expressionism artist tries to express artistic thought through expressionism paintings artworks there are so many artists such as edvard munch otto dix and ernst ludwig kirchner who defined this art style through their artwork**

In a broader sense expressionism is one of the main currents of art in the later 19th and the 20th centuries and its qualities of highly subjective personal spontaneous self expression are typical of a wide range of modern artists and art movements expressionism, abstract expressionism art movement of mostly non representative painting it flourished in us in 1940s and 1950s despite its name it was , the term expressionism was first used in 1911 primarily in relation to art in france and then to refer to the painters of die brücke who by 1913 had drifted apart it would continue to be applied to the work of artists like the austri.
