"Synopsis This is the most comprehensive and far-reaching guide to surviving in the woods. Forget reality TV stunts like eating bugs, the 'Ultimate Guide to Wilderness Living' provides in-depth instructions and step-by-step photos of real survival skills - exactly what one needs to stay alive in the woods. The book first covers immediate needs like starting a fire, erecting temporary shelter, and finding edible plants. Then it goes beyond other survival books by explaining advanced techniques for long-term living in the wild - using only those things found in nature. The authors show how to make tools by chipping stones, fashion a bow-and-arrow out of tree branches, weave baskets, fire primitive pots, build a semi-permanent shelter, and even tan hides. Finally, the authors explain how to bring all these skills together to live in the wilderness for days, weeks, months, or even years. Über den Autor und weitere Mitwirkende Married for over 20 years, John & Geri McPherson live on 46 acres of undeveloped land in the flintheads of Kansas. Everything man made on their property has been done by them. They have taught many members of the military Special Operations Forces including A-Teams, Rangers, and Seals. Twice a year, they run a special class on strictly primitive wilderness living & survival skills for instructors from the US Army's Special Warfare Command's S.E.R.E. survival school."

Free pdf ultimate guide to wilderness living categories books general prepping wilderness survival i have not read this book but it is pretty well reviewed it has a foreword by cody lundin and it is remended by les stroud this book costs 14 on it
