"Pressestimmen "This lushly illustrated volume showcases the range of imaginative designs [Joshua David and Robert Hammond] explored and, in some cases, rejected. In recounting their decade-long experiment, they provide an inspiring primer for grass-roots urban planning.' --Sam Roberts, The New York Times" "This account by the founders of the nonprofit responsible for the groundbreaking reclamation project chronicles the struggles and successes that led to the realization of what was deemed a far-fetched dream--and resulted in a new Manhattan landmark.' --Travel + Leisure" "A fascinating first-person tale.' --The New York Observer" "The High Line is not only a great work of design--surely the most important addition to the public realm of New York in this century; it is also a great saga. In this book Robert Hammond and Joshua David, who led the grass-roots movement to rescue the High Line from demolition, tell with energy, passion, and refreshing candor the story of how this industrial artifact became, against all odds, a magnificent park.' --Paul Goldberger" "This book is the record of a bright and in fact heroic part of New York City's history. The story of the struggle, against very long odds, by two young men to create the High Line is a story of perseverance, determination and courage, and the photographs which accompany it show the brilliance of their achievement.' --Robert A. Caro" "This is a fundamentally uplifting story of two young men with a dream who scythed through red tape and skepticism, summoning a village to help reimagine what a park could be in the twenty-first century. Thanks to their vision, and to the dedication, enthusiasm, and brilliance of their collaborators, a walk in the park has been transformed into an exhilarating urban experience that helps all of us to see our extraordinary city with new eyes.' --Anna Wintour" "If God is in the details, then few projects can be more divine than the High Line. Christo, the man who wraps bridges and the Reichstag, once said that for him the creative part of his work is not the finished product but the seemingly frustrating process of getting all those permits and raising funds and convincing ecologists and city planners. This careful account of how the High Line came to exist despite all the odds proves just how creative and suspenseful realizing a plan can be; it's a real cliff-hanger.' --Edmund White" "The story of the High Line is one of the great encouraging improbable stories of New York life in the past few decades. This book should read by anyone who cares about New York, or green and urban life.' --Adam Gopnik" "There is no more miraculous and important and gratifying piece of new American urban design than the High Line. What's more, how it was conjured into existence is a compelling story, and here's that story--with pictures!--told lucidly and charmingly by the two extraordinary ordinary guys who pulled it off.' --Kurt Andersen

Über den Autor und weitere Mitwirkende **Joshua David** and **Robert Hammond** cofounded Friends of the High Line in 1999. David has written for Gourmet, Fortune, Travel + Leisure, Wallpaper, and other magazines. Hammond was awarded a Rome Prize by the American Academy of Arts and Letters in 2009. In 2010 they were awarded the Jane Jacobs Medal for their work on the High Line."
