"Recensione ""We can't believe this actually exists, but the world is certainly a better place for it"" (New York Magazine) ""It's as enlightening as it is thorough."" --Time Magazine""incredibly entertaining and hilarious."" --rPoncho""Whether you're a Seagal fanatic or just a casual admirer, Vern's acerbic humor and surprisingly illuminating analysis make ""Seagalogy"" an incredibly entertaining read."" --Moviefone""A hilarious and insightful read."" --Film School Rejects""Vern approaches [Seagal] like he s completely deserving of 500 pages of detailed examination. And then writes with such style and humor that you won t regret his decision."" --Hollywood Chicago""This book will force you to reconsider the man, and you may see this badass in a new light, however much you loved or hated him before. If only all film scholars paid this much attention to their subjects. 9/10."" --Crave Online L'autore The writer known only as **Vern** is loved for his unorthodox reviewing style and his expertise in ""the films of Badass Cinema."" His review of the slasher movie Chaos earned him a wrestling challenge from its director; his explosive essay on the PG-13 rating of Live Free or Die Hard prompted Bruce Willis himself to walk barefoot across the broken glass of movie message boards to respond."
