"Pressestimmen ?If you have people you care for (yourself included) you should read this book and incorporate its lessons into your mindset. I consider Be a Hero to be essential reading. ? **David Nash, author of 52 Prepper Projects**? Life-threatening events anytime, anywhere, are a certainty in an increasingly violent world. Your immediate response may mean saving you, your family, your friends, innocent bystanders. Learn how to react, recover, respond, retaliate. Be prepared. Read this book. ? **Jim Hawes, former Navy SEAL officer** ? In a world where crazy things happen and those crazy things drive us crazy with fear, this book is a source of timely sanity. Written by a former member of the Special Air Service?SAS, British special forces?Be a Hero will give you the edge that might just save your life and the lives of others in a terrorist or active shooter attack. What you?ll find here is less about mere survival than about self-actualization at the most intense level. Lead author John Geddes explains how to harness your primal evolutionary physiology to prevail against both your panic and the aggressor?s weapons. Geddes writes: ?Given good fortune, a brave heart, and the glimmer of an opportunity, the skills you learn in this book could help you stop an active shooter in his tracks.? For real.? ? **Alan Axelrod, author of *Miracle at Belleau Wood: The Birth of the Modern U.S. Marine Corps and Patton on Leadership*** ? An active shooter event can occur in a second, anywhere. Be a Hero offers valuable life-saving guidelines for ordinary people who find themselves suddenly caught in the middle of a horrible ongoing deadly situation. Author John Geddes uses his years of experience fighting terrorism to teach you how to make good decisions and act on them when chaos and terror have you almost paralyzed. Don?t be a victim?don?t leave home without first reading this book! ? **J. Wayne Fears, author of *The Pocket Outdoor Survival Guide*** ? The naive optimist in me hopes that Be a Hero by Geddes and Rees, once read, will sit on your shelf and gather dust. The pragmatist inside me suspects the techniques and strategies contained within your well-thumbed, dog-eared copy will be committed to memory. Believe me, and I am not being alarmist when I write, this book could save your life. ? **Richard Syrett, veteran radio and television broadcaster, frequent guest host on *Coast to Coast AM*** ? I met John several years ago, when he started teaching classes at our gun range. As a twenty-five-year veteran law enforcement officer and use of force self-defense trainer, I often find myself highly skeptical of trainers that I don?t know. After spending a good deal of time with John discussing mental preparedness and tactics involving critical incidents, I must say that he is
