"Pressestimmen 'It's a tale spanning of 50 years of constant one-upmanship, in which each successive Lamborghini aims farther, faster and more extreme than its predecessor. In addition to being a parade of fine photographs of beautiful cars, Lamborghini Supercars 50 Years provides technical details of the many variants of each model, and background information about the men who designed and engineered them.' - **TopSpeed.com** 'The lore of the brand unfolds quickly and smoothly in Lamborghini Supercars 50 Years, by author Stuart Codling and photographer James Mann. There are engaging highlights on significant engineers and designers. There are historic photos, concepts and prototypes and many twists and turns, myths and misnomers -- not all of them glorious or successful but always fortifying.' - **San Diego Union Tribune** 'glorious... covers everything from the early days of tractor manufacturing to the polished supercars of today.' 'excellent... charts in superb detail the history of Lamborghini' 'big on stylish photography... does the job very nicely' 'Stuart Codling has authored a 224-page hardcover tribute to Lamborghini's mid-engine flagships. Exciting photography by James Mann is combined with Lamborghini-supplied images to create a visually arresting historical overview. This coffee table-worthy book is a genuine bargain.' - **Hemmings Sports & Exotics** Über den Autor und weitere Mitwirkende **James Mann** is one of the world's leading car and motorcycle photographers, with more than 20 years of experience shooting for enthusiast publications, the motor industry, and businesses around the world.
