101 Happiness Hacks *The Technology of Joy* reveals scientific breakthroughs that deliver joy, euphoria, inner peace, and even ecstasy! Psychotherapist and bestselling author Jonathan Robinson takes you on a tour of all the best ways to feel fantastic. Imagine... you pop the pink pill into my mouth and wait for the expected feelings of ecstasy. No, the pill wasn't the drug XTC, but rather a legal and safe alternative. Then you put on your trans-cranial stimulation device and wait to see what happens. Wow! After about five minutes, it feels like your brain is flooded with endorphins. After a few minutes of this frenzied euphoria, you take off the device and go about your day. Having just been catapulted into sweet ecstasy, your day becomes both incredibly productive and happy. This is not a future scenario. This is how the author likes to begin each day. Nowadays, there are new and improved ways to feel good—even ecstatic—that most people don't know anything about.
