"Synopsis Reviews in a point/counter-point fashion various correct programming methodologies. This work aims to show what's right or
wrong with these and show where each can be most effectively used. Autorenkommentar **Thank you for your comments!**To those of
you who have submitted reviews, thank you very much. We wrote the book for software developers to USE, and we are particularly
interested in finding out how you were able to apply it to your development environment. Whether you loved it or hated it, we'd appreciate
feedback from ANYONE who read it.Thank you. Alle Produktbeschreibungen"
