"Pressestimmen ' ... provides a powerful reminder that debates over immigrations, social welfare, and inequality will intensify in the decades ahead.' -- Foreign Affairs'An excellent, succinct guide.' -- Robert Mayhew, Literary Review'Global Change is a major concern of the Martin Institute, and this book is a solid contribution in that area. It presents a comprehensive and balanced treatment of global demography ... The text is [...] enlivened by brief narratives on the life experiences and aspirations of young persons in the various regions.' -- L. MacK, Population and Development Review' ... this paperback dates little from the hardback three years ago: the issues are still germane and the ground Harper covers still hugely relevant.' -- Jonathan Cowie, Concatenation Über den Autor und weitere

Mitwirkende Sarah Harper, *Professor of Gerontology, Oxford University and Director of the Oxford Institute of Population Ageing* Sarah Harper is Professor of Gerontology at Oxford University, Director of the Oxford Institute of Ageing, a multi-disciplinary research unit concerned with the implications of population ageing, and Director of the Clore Programme on Population-Environment Change. Her research concerns globalization and global ageing, and the impact of population change, in particular the implications at the global, societal and individual level of the age-structural shift from predominantly young to predominantly older societies. She has authored, edited and contributed to several books, including *Families in Ageing Societies* (Editor, OUP, 2004), *Ageing Societies: Myths, Challenges, and Opportunities* (Hodder Arnold, 2005) and *Demography: A Very Short Introduction* (OUP, 2018). She is also the editor of the *Journal of Population Ageing* (Springer)."
