Adriana Vasquez and Kendall Reed do not get along. The two girls are total opposites. Adriana is a shy loner that focuses on school. Kendall is the outgoing cheerleader. The two never thought they would be friends. That was until they ran into each other at an Alateen meeting. Adriana's father is an abusive alcoholic. Her mother left when she was little, leaving her to look after he younger brother Luke. Kendall's mother suffers from depression and

alcoholism. Her father walked out on his family and started a new family with a younger woman. When they start to open up to each other, the two spark a friendship. That friendship turns into much more when they admit that they have feelings for one another. An altercation with Adriana's father will threaten to ruin everything they've shared together.
