Developed for the International Association for Trauma Surgery and Intensive Care (IATSIC), the *Manual of Definitive Surgical Trauma Care 5e* is ideal for training all surgeons who encounter major surgical trauma on an infrequent basis.

This new edition includes both an e-version, and also a microSD card containing over 20 operative videos. The increasing role of non-operative management (NOM) has been recognised, and the Military Module is substantially updated to reflect recent conflict experience. An expanded section highlights trauma management under austere conditions. Written by faculty who teach the DSTC Course, this definitive and well established book focuses on life-saving surgical techniques to use in challenging and unfamiliar incidents of trauma.
