"Pressestimmen 'When J R R Tolkien died in 1973, his friend and academic colleague C S Lewis praised his 'unique insight at once into the language of poetry and into the poetry of language'. Generations of readers have responded to the power, precision, and delicacy of J R R Tolkien's linguistic imagination. This absorbing new study of *The Hobbit* brings a philologist's eye to that work's creation, structure, and expression, positioning it within the broader development of Tolkien's professional thinking about philology and the evolving mythography of his creative writings. Mark Atherton, himself what Tolkien calls 'a scholar of gramarye', imaginatively shows how Tolkien's academic interests in philology, linguistic-aesthetic and in reconstructive philology spilled over into the crucible of his own mythography, and was catalysed by the alchemy of his own reading in myths and contemporary fairy stories by writers such as William Morris, Edward Thomas, Francis Thompson and Robert Graves. This book gives them new ways of appreciating the interplay between his narratives and the linguistic enchantment of their imaginative world. Atherton's insights bring to mind Tolkien's own comment: 'How those old words smite one out of the dark antiquity!' - **Vincent Gillespie, J R R Tolkien Professor of English Literature and Language, University of Oxford** 'Mark Atherton's treatment of one of the most famous books of the twentieth century is timely and welcome. On the face of it, *The Hobbit* appears an engaging fantasy adventure for young readers; but, as it later transpired, Mr Bilbo Baggins' exploits 'there and back again' were simply a prelude to the apocalyptic drama that was to unfold in *The Lord of the Rings*. One reason for the enduring appeal of both of these works is that J R R Tolkien imbued his tales of a fictional realm with resonances of ancient themes and universal truths. In this detailed exploration, Mark Atherton provides the reader with a comprehensive understanding of the many origins, influences and inspirations - biographical, historical, geographical and literary - that, combined with a unique imagination, resulted in the crafting of a new mythology.' - **Brian Sibley, author of *The Lord of the Rings: The Making of the Movie Trilogy* and of *Peter Jackson: A Film-maker's Journey*** There and Back Again is essential reading for all Tolkien fans - and also for anyone interested more broadly in medievalism, or the ways in which later writers have responded to the culture of the Middle Ages. Mark Atherton is that ideal combination: a reader and critic deeply appreciative of Tolkien's literary artistry, his imaginative scope and his linguistic invention, who is also, like Tolkien himself, a distinguished scholar of medieval language and literature. In this highly readable and accessible study, Atherton brings his own scholarship to bear on Tolkien's sources for *The Hobbit*, and in the process illuminates the whole of Tolkien's remarkable oeuvre.' - **Heather O'Donoghue, *Vigfusson Rausing Reader in Ancient Icelandic Literature & Antiquities, University of Oxford*** Werbetext Explores the chief influences on J R R Tolkien's work: his boyhood in the West Midlands; the landscapes and seascapes which shaped his mythologies; his experiences in World War I; his interest in Scandinavian myth; his friendships, especially with the other Oxford-based Inklings; and relevance of his themes, especially ecological themes, today.
