Ferns are back in the bathroom, cacti are sitting on plant stands and you don't have to look far to see a devil's ivy hanging from a ceiling. Indoor plants are the ultimate indoor accessory. Softening interiors and readily available, they are also a stylist's best friend. However, it's their power to transform a sterile space into an urban sanctuary that makes them more than just an inanimate prop all you need to know is how to use them. From the founders of Australian plant-ware label, Ivy Muse, comes this charming guide on how to turn your home into a jungle-like retreat. With design-savvy tips and expert advice, you'll learn all there is to know about decorating with plants and botanical styling plus the necessities like light requirements and when to water and feed. From bathroom to boudoir to every room in between, create your very own green oasis with Plant Style.
