"Synopsis This title forms part of a series of books that takes an off-beat look at natural history through a fun combination of Seussian rhymes and zany illustrations. Aimed at early readers - from four to seven years old - the books are designed to bridge the gap between concept books written for preschoolers and more formal non fiction titles that require fluent reading skills. By presenting the facts in a lively and rhythmic manner, they provide the critical foundation upon which complex facts and ideas can eventually be built."
