Motos Honda est un voyage à travers cinq décennies, des années 1970 à nos jours. Tout commence avec l'avènement de la CB 750 Four, la moto qui ouvre l'ère du motocyclisme moderne et se poursuit avec les modèles les plus emblématiques de la marque, jusqu'aux dernières nouveautés les plus significatives du géant japonais. Les acteurs de ce périple dans l'espace et dans le temps sont une quarantaine de motos. Il y aurait pu y en avoir encore davantage mais il a bien fallu faire des choix et se concentrer sur les machines les plus intéressantes sorties sur le marché européen. Chaque moto fait l'objet d'une présentation qui en raconte la genèse, les caractéristiques techniques et de pilotage, tout en faisant référence au contexte historique dans lequel elle est apparue et l'importance qu'elle a prise en arrivant sur le marché. Ces éléments sont évidemment accompagnés de fiches techniques et illustrés dans le moindre détail.

**Electronically Controlled bined ABS is the world s first electronically controlled braking system for super sport bikes All levels of licensed riders can experience a new level of advanced braking performance on a large motorcycle simply by applying the brakes normally and firmly The system is designed to elec**
