The penetration testing industry has exploded in the last decade, as more and more organisations seek assurance that their cybersecurity strategies are being effectively implemented. The Pen Test Diaries allow you to follow a penetration tester through the technical, and non-technical processes involved in testing an organisations information security measures. Based on the author's real world experiences, the diaries tell fictionalised versions of penetration testing discoveries. A must read for anyone interested in computer security or the penetration testing field. In this episode penetration tester Laura Knight is brought in at short notice to test the security of newly opened secure facility operated by a defense contractor. Her mission, to work around multiple layers of security to extract sensitive data from the highly locked down network. From the author of the acclaimed Digital Forensic Diaries series.
