"Pressestimmen 'Whither Fanon? is one of the most original and significant works of theory of this generation. Drawing deeply from Fanon's clinical psychoanalytic work, David Marriott shows in labyrinthine precision how Fanon's colonial racial interiority is both far more unfree than has been imagined and open to an ungrounded revolution without reserve. Perhaps alone among Fanon's readers, Marriott keeps up with Fanon's own complexity, radical negativity, and creative criticality.'--Rei Terada 'University of California, Irvine "This book is a clarifying event amid recent readings of Fanon and a radical intervention in the conventional ones. Writing with an intensity and momentum unparalleled by other scholars in the field, David Marriott is Frantz Fanon's first reader.'--Frank B. Wilderson III 'University of California, Irvine ' Über den Autor und weitere Mitwirkende **David Marriott** is Professor in the History of Consciousness Department at the University of California, Santa Cruz."
