**Bestselling author and eminent foreign policy scholar Zbigniew Brzezinski's classic book on American's strategic mission in the modern world**In *The Grand Chessboard*, renowned strategist Zbigniew Brzezinski delivers a brutally honest and provocative vision for American preeminence in the twenty-first century. The task facing the United States, he argues, is to become the sole political arbiter in Eurasian lands and to prevent the emergence of any rival power threatening our material and diplomatic interests. The Eurasian landmass, home to the greatest part of the globe's population, natural resources, and economic activity, is the "grand chessboard" on which America's supremacy will be ratified and challenged in the years to come. In this landmark work of public policy and political science, Brzezinski outlines a groundbreaking and powerful blueprint for America's vital interests in the modern world. In this revised edition, Brzezinski addresses recent global developments including the war in Ukraine, the re-emergence of Russia, and the rise of China.

**Both continued their influence on geopolitics after the end of the cold war writing books on the subject in the 1990s diplomacy and the grand chessboard american primacy and its geostrategic imperatives the anglo american clas**
