"Über den Autor und weitere Mitwirkende **Jun Maekawa**, who studied physics, is credited with developing a new origami method based on fundamental geometric patterns. His insights into the connection between mathematics and origami are summed up in the Maekawa Theorem. He is a chief councilor of the Japan Origami Association and executive manager and engineer for a software company producing scientific engineering calculations. *Genuine Origami* is Maekawas first book to be translated into English."

**In genuine origami maekawa takes readers step by step through the fundamentals of his method beginning with the basics and guiding them through simple figures a mouse an elephant santa like his counterpart in the u s prominent origami artist and scientist robert j lang jun maekaw**
